Series 54-610/1 and -/2 Series 54-610/3 and -/4 easyHEALTH, Liquid Gloves

Out of the easyHEALTH program, this product represents a valuable option – next to the 3-step Turimed-System which is being successfully used since years. This “liquid glove”, available as likeable foam (Series 54 610/3 and -/4) and/or as lotion (Series 54 610/1 and -/2) offers optimal protection for your skin whereas physical and thermal feelings are being maintained. Its major advantage is that the skin is still breathing and can perspire (less sweating, suitable underneath Latex- or Nitril gloves) and no disturbing oily film that occurs.

Series 54-610/x easyHEALTH protects you and your hands against aggressive substances, dirtying products, solvents, dyes, detergents, invisible hypo allergens and offers a long term skin protection against allergies, cleaning and cracks and furthermore prevents from dry skin and skin irritations.

USE

Application	Pour a hazelnut-size amount onto clean and dry hands. Rub-in well (also fingernails and fingers). Let dry for 1 to 2 minutes. Your skin is now protected for the next 4 hours. Series 54-610/x easyHEALTH removes itself after approximately 4 hours by normal sweating of the skin.
Suggestion	Apply twice a day; in the morning before you start work and after lunch (again, rub- in well).

PROPERTIES

Water- and soap resistant, environmental-safe, none toxic, silicone free
Chemical resistant, no oily film
