

ADA3233 Product Data Sheet

UV-Visible Fluorescent Red Pigment

Product Properties

Composition: Rare Earth Complex

Physical Appearance: White Powder

Excitation color at 366nm: Red

Insoluble in: Water

Soluble in: Ethanol

Typical Luminescent Properties:

Abs. Max.; λ max: 382nm

Emission Max, λ max: 614nm

Typical excitation and fluorescence spectra:

Appearance at visible light

Excitation Color at 366 nm

All applications using this product should be thoroughly tested prior to approval for production.

The information herein is believed to be reliable and is to assist customers in determining whether our products are suitable for their applications. However, no warranty, express or implied, is made as to its accuracy or completeness and none is made as to fitness of this material for any purpose. Our products are intended for sale to industrial and commercial customers. We request that customers inspect and test our products before use and satisfy themselves as to contents and suitability. Nothing herein shall constitute any other warranty, express or implied, including any warranty of merchantability or fitness, nor of protection from any law or patent to be inferred. All patent rights are reserved. The exclusive remedy for all proven claims is replacement of our materials and in no event shall we be liable for special, incidental, or consequential damages. We shall not be liable for damages to person or property resulting from its use. Consult the Material Safety Data Sheet for additional information
